

Authority on Harpsichord at Local College

Madame Alice Ehlers, an authority on the music of Bach and on the performance of Baroque music, will present a harpsichord recital March 10, at 8:30 p.m. in the El Camino College Campus Theater.

Program will include an informal lecture on the instrument and its repertoire and a recital in which Madame Ehlers will play music by Bach, Handel and the Baroque French Composers.

Madame Ehlers, a native of Vienna, studied in Berlin under Albert Schweitzer and Wanda Landowska. After years of study on the harpsichord, she was awarded an honorary doctorate degree from Lewis and Clark College, Wash. Now retired, Madame Ehlers was a professor of music at the University of Southern California.

Associated Students of El Camino College will sponsor the program, open to the general public for an admission of 1. All seats for the concert are reserved. Tickets will go on sale February 27 in the campus book store.

FIRST LOOK—Admiring awards presented by the El Camino College Faculty Association to friends of the college are John Mills, center, association president, and members of the college board of trustees. From left: Hilas K. Ashley, El Segundo; Jack-N. Debbs, Torrance, and Foster A. Day, Redondo Beach. Awards were made Feb. 16.

Famed Physicist Appears Tomorrow at Harbor J. C.

Dr. Joseph Kaplan, internationally known scientist and professor of physics at UCLA, will appear in person at Harbor College tomorrow at 8 p.m., when he will discuss his work as chairman of the United States National Committee for the International Geophysical Year.

He will also discuss his work as a member of a present successor committee to the first IGY group.

The lecture will be the fifth event of the current Harbor College Forum Series. Season tickets will be honored, or individual tickets may be purchased now at the college finance office or at the box office on February 24, beginning at 7 p.m.

Dr. Kaplan's work with the first IGY committee culminated in the space age with the launching of the first United States satellites. The committee's activities included additional important programs, such as polar expeditions, long-range weather forecasting, and studies of the ocean's depths.

WORLD FAMED

Kaplan has been active on a number of other interna-

tional and national committees, such as the International Associations of Geomagnetism and Aeronomy, the International Council of Scientific Unions, the American Astronomical Society, the American Rocket Society, and the Institute of Aeronautical Sciences.

He has also given his time to university and civic affairs, such as the local air pollution problem.

One of the world's leading experts on upper-atmosphere physics, Kaplan has assisted the military services in matters relating to air weather service and meteorology. He is a member of the Air Force Scientific Advisory Board and was awarded the War Department's decoration for exceptional civilian service in 1947.

Kaplan holds B.S., M.A., and Ph.D. degrees from Johns Hopkins University and honorary doctorates from other colleges and universities.

Coming forum features will include the Mitchell Singing Boys, vocal stars of radio, television, and motion pictures, on March 15.

County Approves Street Plans in Subdivisions

Plans for construction of streets for 49 proposed subdivisions, valued at \$2,810,730, were approved during the last three months of 1960, Supervisor Burton W. Chace revealed this week.

Chace, chairman of the Board of Supervisors' Road committee, said this is an increase of \$991,412 over the same period in 1959 when 46 proposed subdivisions totaling \$1,819,318 were approved.

Projects approved by the County road department were for construction of streets in various tracts throughout Los Angeles County and included grading and paving, installation of curbs, gutters, sidewalks and drainage structures.

This is considerably more than in 1959 when the overall increase was 17.7 miles.

Chace said these figures show the continuing growth of Los Angeles County and the progress being made in development of the County highway system.
